Only One Labor Temple Fund Drive Authorized

Solicitors are seeking to take advantage of the current Labor Temple fund drive to ask for contributions to other "labor" fund campaigns not recognized or authorized by the AFL-CIO Tri-City Trades and Labor Council. It was reported today by Edwin F. Reiske, council president and Labor Temple secretary-treasurer.

Annual contributions are being accepted for maintenance of the Labor Temple building, but in all cases the solicitation has been used for the Labor Temple and has utilized its official stationery, Reiske explained. No other donations or advertisement purchases aid the local labor movement, and often go principally to the solicitor, Reiske said. In contrast, all contributions for the Labor Temple are used for that purpose, he added. He suggested that businesses asked for funds contact the Labor Temple or Chamber of Commerce to check on whether the request is bona fide.

Members of the Pontoon Beach Volunteer Fire Department were called into action twice this weekend—one to extinguish a blaze resulting from an explosion at the home of Roy Green at 2448 Pine street, about 2 p.m. Sunday, and on Saturday afternoon to put out a fire in the cab of a tractor-trailer truck on Highway 162 between Highways 111 and 157.

Volunteer Fireman Charles Kennerly said that Green had been working his clothes in the washing machine, and a spark from the motor ignited the fumes. All rooms of the five-room house were blackened by soot and smoke in a flash fire but no one was hurt.

The bride's father gave her in marriage. She wore a full length gown of candlelight Peau de Soie, designed with Alençon lace motifs. The fitted basque bodice featured an oval shaped neckline which dipped to a V.

The skirt was controlled in the front forming a dome shape with fullness to the back of the gown and terminating into a cathedral train. The bouffant silk illusion veil was held in place with a hairpiece of seed pearls accentuated by lace petals. Her cascade bouquet was of white orchids, stephanotis and lilies of the valley. She wore her mother's pearl earrings.

Miss Carolyn Glor, sister of the bride, from Findlay, O., was maid of honor, serving with Mrs. Gary Hart, a former roommate from Murphysboro, Ill., and Miss Judy Kennedy, a college roommate, of Decatur, Ill. The attendants were gowned identically in sheath dresses of blue silk organza over tulle, styled with scoop necklines and cap sleeves. Their dresses featured over-skirts which terminated in handkerchief points. Matching blue boxes with circular veils were worn for headpieces and matching shoes and short white gloves completed their attire. They carried colonial bouquets of blue and white mums, ivy and streamers.

Carol Smith was the flower girl and Barry Bender, nephew of the groom, was the ringbearer. The former was dressed in white organza with a blue taffeta ash. She wore a blue velvet bow headband and a basket of rose petals were carried.

Mrs. Glor chose for her daughter's wedding a light blue suit with white accessories. Mrs. Henkey wore a jacket trimmed with tiny seed pearls. Both wore white orchid corsages.

Chris LaRue of Peoria, was best man and Martin Gagle of Edwardsville, Richard Bender, brother-in-law of the groom, served as groomsmen. The ushers were Dandy Glor, brother of the bride, of Imperial, Mo., and James D. Wayland, cousin of the groom.

A reception was held at the church immediately following the ceremony. After a honeymoon trip to Canada, the newlyweds will reside in Granite City.

The bride received her B.S. in special education from Illinois State Normal University and is presently teaching EMH classes at McKinley school in Granite City. Mr. Henkey received a B.A. in English journalism from Central College, Fayette, Mo.

Knights Beat Squires 23 To 12 In Grapefruit Softball Fiasco

The elements washed out most athletic activity Saturday, but not before the Columbian Squires and the Knights of Columbus played their annual "Grapefruit softball league" fiasco Saturday morning on the Wilson Park diamond.

The Knights won 23 to 12, ousting the youngsters 31 to 18. The unofficial scorekeeper claimed that the Knights played errorless ball, while the Squires were charged with four bobbles.

Rich Haack went all the way on the mound for the Squires, hurling over-ripe grapefruits to his father, "Babe" Haack, who managed to squish them and get even by getting three hits in three trips to the plate against his son.

Mercer Splits Twin Bill With Carpenter, Hearts Drop 6-4 Thriller In 11th

Sacred Heart dropped a 6-4 thriller to Collinsville in 11 innings at Wilson Park yesterday while Mercer split a twin bill with Carpenter, losing 7-5 after taking the opener 4-1 on the road in Inter-City Baseball League action.

In the only other game played, Moose Lodge added to its Red division lead by edging Poca-hontas 6-5 in 10 innings as Moe Cook homered in the ninth to give Moose the win. Bob Stange doubled home the winning run in the 10th. Other games were postponed because of rain.

Mercer's jumped to an early lead in the first game at Car-terville as Charles Johann-mer homered with two on in the first inning after Cook walked and James Pitts was safe on an error. Johann-mer scored the final run in the third inning on an error.

Larry Schaake scored Car-terville's only other run after being walked. Dick Port-ell gave up five hits, fanning nine and passing only two while

letting six safeties, including three by Don Crabtree.

Mercer's won four-and-four, lost an opportunity to move up on undefeated St. Clair Heights, which was idle, and remained in third place in the Blue division

standings, by dropping the second game. Carpenter scored twice in the final frame, and wrapped it up with a five-run seventh as new hurler Cecil Simpson ran out of fuel. He was relieved by Portell.

Mercer scored a run in the first at Carterville, while doubled, scored on a wild pitch. Harold Schreiner crossed the plate in the seventh after opening with a hit, and a final effort in the last of the ninth produced three

runs, with Larry Dillard, Portell and Crabtree scoring.

Carpenter was out to 10 to seven, with Crabtree again getting three hits. Stan Fischer, Harold Tankley and Scheibel each picked up two. Pitcher Simpson and Dillard and Glen Hoffman, infielders, were signed to contracts before the game.

Grand Slam Home Run
At Wilson Park, Wayne Cross-tripled to score the two win-ning runs for the Collinsville Boosters. Both the Hearts and Boosters tallied four times in the sixth frame, with Ray Mur-phy coming through with a grand slam homer for the win-ners off Jack Bunte, who had relieved starter Haack.

The Hearts scored on a walk to Jim McKechn, who was forced by Sam George, a double by Clarence Jones, a walk to Bob Hofek and singles by Steve Schardan, Clayton Har-ri-son and Pete Burdge.

The Hearts, at three-and-five, dropped two games behind Moose lodge.

Two Charges Against Driver After Mishap

Edward C. McBride, 32, Route One, Plevy, Mo., was charged with failing to yield the right-of-way and having no driver's license after a collision during rain at about 7 o'clock which jarred her apartment but that she thought it was a sonic boom and therefore dismissed it from her mind.

Former GC Woman Kills Husband And Herself With Rifle

Mrs. Evelyn Harrison, 38, a former resident of Granite City, fatally wounded her 45-year-old husband, Norman, with a 22-caliber rifle and then killed herself in their four-room, upstairs apartment at 3012 1/2 Wyoming street in south St. Louis, it was determined at a coroner's inquest Friday in St. Louis.

There was no apparent motive. The inquest fixed the time of death of the man between 1 and 7 a.m. Tuesday and the time of her death at shortly after 7 a.m. Tuesday. They were found at 5:45 p.m. Wednesday.

The Harrisons both worked the 4 p.m. to midnight shift at the Cupples-Hesse Envelope Co. on Kingshighway Blvd. in St. Louis. After they had not appeared for work on either Tuesday or Wednesday, Supervisor Edward Johnson and Richard Pepper decided to investigate.

When they received no answer at the apartment door, Johnson obtained a key from the landlord, Edward Sander, who lives downstairs. They found the unclothed body of Mr. Harrison bed with one bullet under the temple. The pajama-clad body of Mrs. Harrison was sprawled on the floor with the rifle under her mouth. They were pronounced dead at St. Louis City Hospital.

The wife of the landlord, Mrs. Sander, said that she had heard a loud "thump" Tuesday morning at about 7 o'clock which jarred her apartment but that she thought it was a sonic boom and therefore dismissed it from her mind.

The Harrisons, who were married only since Nov. 25, 1962, were reported by the neighbors to have been a very quiet couple.

trip Friday evening. Return
journeys took place either
Thursday night or Sunday morn-

ways to prepare steak and other
food in the outdoors.

Three-Auto Crash On Viaduct During Rain

Venice police said David W. Garrison, 1426 Sixth street, Madison, stopped for traffic and the rear of his car was struck by the front of a 1957 Chevrolet and bumper of an auto driven by Howard J. Contract For S. M. Wilson

Trust and Savings Bank

Did you know there are several ways to put a limited endorsement on a check, depending upon what you want to accomplish?

The opposite of a limited endorsement is a blank endorsement. This is the simplest. You just sign your name on the back, the same way it appears on the front. But with this type of endorsement, the check becomes immediately negotiable. If you could cash it by merely signing his name under yours.

How can you avoid that headache? Well, there are several types of limited endorsements which limit who can cash your check.

There is the special endorsement, for example, "Pay to the order of," and then write the endorsee's name and sign your own name below it. This gives him and him alone ownership of the check. If he wants to endorse it over to someone else, that's his business and he can also endorse it. But at the state level, you're responsible, no one can cash the check but the person you intend.

If you want the check to be paid to the endorsee only... and you don't want your check to circulate any further, then you put a restricted endorsement on it. A restricted endorsement reads, "Pay to the order of." Just "Pay to." Then immediately under that, write the endorsee's name and nothing else. He then signs just below that. This type of endorsement restricts circulation to one party only. Next stop for that check is the bank.

NOTE: For financial assistance or banking services, you are cordially invited to consult Mr. Loman or any of the other officers at Granite City Trust and Savings Bank, 1909 Edison Avenue.

Hours: 9:00 to 2:00—Monday thru Thursday.
Friday 9:00 to 1:00 and 4:00 to 7:00
Telephone — Triangle 4-1212

Another commonly used restricted endorsement is to endorse the check "For deposit only" or "For deposit." Obviously, with this type of endorsement you can mail the check or send it by messenger without a worry. If it gets lost, no one could possibly negotiate the check. It must be deposited in the bank in the name of the endorsee.

That's that. Now... If you do lose a negotiable check, do you know how to stop payment on it? Merely call the bank... of course, you must do it before the check is presented for collection... and tell them to stop payment. Give them the date, amount and payee's name. An oral order is binding upon the bank only for 14 calendar days unless confirmed in writing within that period. A written order is effective for only 6 months, unless renewed in writing.

If you're receiving a check for a large amount from a stranger, and you have no assurance that his check is good, you may ask him for a certified check. Then you have no worries. The bank certifies right on the face of the check that it will be honored. You're now dealing with the bank—not the individual.

Cashier's checks serve the same function, but the purchaser of a cashier's check doesn't need to have an account at the bank, he can walk in and buy a cashier's check with cash or with a personal check—Advt.

During the business period, plans were made for the first to sponsor a youth summer camp and institute fund. It is planned to send youth from the Madison Methodist Church to a church camp, either the Little Grass Camp or the McElwain Institute. Other organizations of the church are being asked to assist in sending youth from the church to either of the two places.

Sales Campaign On U. S. Farm Plan

Pressure from Washington is unprecedented this spring in urging farm families to get along with cash payments to go along with acreage reduction programs.

Examples of how the Agricultural Stabilization and Conservation Service promotes participation in federal programs have been uncovered in research conducted in recent weeks.

A come-and-get-it message from the Carroll county ASCS office announced that "1963 payment rates are higher than last year's." Average payment rates—\$1.44. The explanation points are as they appeared on the postcard, with emphasis on the dollar sign, and the "higher" and "\$74.54" were underlined.

Nearly convenient places and dates were mentioned and farm producers were urged to sign up as soon as possible.

Tempting Bait

"Do you know that by diverting \$7.6 cents from your corn crop you can earn a \$198.29 dividend acreage payment plus a \$242.19 price support payment whether you feed or sell your corn?" This is the opening sentence on a postcard mailed to farmer Harold Steele of Route Two, Princeton, Tenn., by the Carroll county ASCS office.

The mimeographed card continues: "Also, you are eligible for price support of \$1.08 per bushel under loan or purchase agreement on all or part of the corn produced on your permitted acreage planted to corn."

Payments offered for acreage diversion to two other crops brought the total to \$107.34 on \$80.30 an acre for the remaining 126 acres of grass. Steele didn't take the bait. His comment: "If the program was one of really controlling the surplus and reverting to the distribution of the market, I'd go along."

Program Causing Surplus

"But the government program itself is the cause of the surplus. People are growing corn and feed grains today who normally wouldn't be producing them—because of government checks, price supports and acreage controls."

The farm problem, as Steele sees it, is an individual management problem, not a business. The land he operates has an average corn base—438 acres of crop land. Management should be free to use the land to the best advantage without a profit without government intervention, he says.

Key committees, the state feedmen and the top administrators of the ASCS program state and county offices continue to furnish a formidable barrier to carrying on and expanding farm programs.

Propaganda Barrage

The rule that bureaucracy strives to perpetuate itself and grow applies to those in farm programs as well as in other branches of government. Speeches of Secretary of Agriculture Freeman and ASCS leaders are mimeographed together with other propaganda

favorable to farm programs and mailed postage-free to farmers from county ASCS offices.

The Secretary of Agriculture recently adopted a rule, to be contested, that each elected county and township politician must sign a pledge "to support" the program. He is called upon to administer it. Federal Register of March 1, 1963, announced amendments to provide that:

"Before any such... committee or alternate may take office he shall sign a pledge that he will faithfully, fairly and honestly perform to the best of his ability all the duties devolving upon him... and that he will support the program he is called upon to administer."

The last phrase is being challenged as an invasion of the rights of a citizen. A Louisiana congressman was quoted as saying: "When Congress passes a law that the President doesn't like, he's not required to resign but simply to veto it. An elected congressman should not be required to resign."

Views Of Past Chairman

Lester E. Leigh of Springfield, Ill., chairman of the state ASCS committee in Springfield, served for 6 1/2 years under the program. He said the program was a "sell" for the farmer. He said the program was a "sell" for the farmer. He said the program was a "sell" for the farmer.

Asked whether there was any difference then and now in the administration attitude toward farm programs and farmer participation, he replied: "The program didn't tell farmers what to do. That's the big difference. The program was to 'sell' the program to farmers. Republicans led the farmer make up his own mind."

"The farm program is a political football now. It's being used by the Congress to get the farm program out of the farm program. It's being used by the Congress to get the farm program out of the farm program."

Gradual Transition

"The goal should be for the government to get out of farming except for research and advisory service as soon as possible."

"But it's a hard proposition to get out of abruptly. It would be a cold-blooded thing to pull the plug at once. The transition to complete freedom for agriculture would be gradual."

"I feel that the best solution is to permit market forces to have the dominant influence in setting prices, but with enough support to prevent a disastrous price collapse."

Granite City's own champion singing organization, the Granite City Chorus, which in February won the state title for Welsh chorus, will sing from the stadium of the Washington Theater tomorrow and Saturday nights in what will be its final appearances before entering the national competition at Warren, O., on June 25.

The Y.M.C.A. chorus has an inception three years ago, was one of the federal Government's first projects. It started with a membership of 15 voices, was a single singing society under the name of the Granite City Chorus, and grew to 100 members in 1962.

Guest suggestions for Father's Day, 1963 (from an ad by Fleischman's men's clothing store) are: "Palm Beach suits—\$17.75, socks—25 cents, and shirts—\$2.50."

Theresa Varady was the given a birthday party in the home of Misses Sue and Love Erwin of Cleveland and the table was set with flowers. The party was held at the home of Misses Sue and Love Erwin of Cleveland and the table was set with flowers.

Death Of Sales Tax Boost A \$293,000 Boon To Quad-Cities

The Illinois Senate Revenue Committee deserves the thanks of all residents of the state for its 10-5 vote killing the proposed authorization of a half-cent city sales tax. It is true that some cities are hard-pressed for funds and that the state on occasion has boosted municipal costs. A minimum consideration this man pay bill has been under consideration since 1951. But the "cure" would have been worse than the ailment, in this case.

Based on the 1962 tabulation, an extra \$293,501 will be left in Quad-Cities' wallets and purses this year, thanks to the Revenue Committee.

Low Cost Of Sewer Break A Break For Taxpayers

The \$527 cost of the latest Granite City sewer break repair is a refreshing contrast to the hundreds of thousands of dollars spent in the past several years for their last work in high heat and humidity, and their use of a new metal sleeve repair technique, which may be a helpful addition to the "future reference" file.

It has been apparent for some time that some Illinois legislators have been more concerned with horsemen than their voters have reflected their thinking. But we note that a blow was struck for the common man early this month when the Illinois House of Representatives passed a measure to eliminate a "merged transit" fund for Illinois thoroughbreds in a 1963-65 appropriation bill.

Safety Belt Law Expected To Reduce Traffic Toll

The question of whether to install safety belts in their autos has been settled for Illinois motorists—all new cars sold after June 1, 1964 must be equipped with two sets of seat belts.

The new state law should prove to be a helpful step toward lowering a statewide accident toll that has risen to a tragically high level in the past several years. Accidents have taken 19 lives in the Quad-City area in less than half of 1963.

Not only are auto deaths curbed, but the severity of non-fatal injury is reduced, studies of safety belt usage have shown.

Bar Association Educational Program Aids Public Attorneys

Groups in the spotlight at this week's Illinois State Bar Association meeting in Aurora will include the Tri-City Bar Association, which has been receiving deserved praise for educational programs directed toward both private citizens and attorneys.

In addition to making speakers available to the public on virtually any legal subject—15 lawyers have addressed local organizations in the past four months—the Bar Association has arranged monthly programs in which its own members have been kept up-to-date on such topics as income tax, insurance, estate planning, and real estate.

Rights under the U.S. Constitution and laws have been dealt with by speakers at Granite City and Madison high schools. "Career day" groups at Granite City and Venice high schools have been addressed by members of the legal profession, and a mock trial was held at Lincoln high school.

Other activities have included a Law Day flag presentation ceremony at the city court, and a joint meeting with local doctors on estate planning, which has been a busy year for local attorneys, who have demonstrated that they are never too busy to give their attention to the public.

The FORUM

ALL SHOULD DISPLAY U.S. FLAG ON HOLIDAYS

To the Editor: As we drive or walk through our city and other places, we see the flag displayed. The flag is the soul of America.

It is good to see so many people interested in the meaning of holidays which concern our flag. I've noticed in the Nankemo area that a resident displays his flag on his porch. He has also placed a flag on his porch. He has also placed a flag on his porch.

Tavern Hour, Annexation Issues Facing Madison

Summer is sometimes an off-season for municipal governmental issues, except for annual budgets and tax levies, what many officials and citizens least expect to find themselves in the middle of. But two key issues have arisen that can affect the city of Madison in the coming weeks and months.

One is the continuing trend toward elimination of all-night tavern and night club operation. A 1 o'clock closing law, with an extra hour on Saturday nights, is gaining considerable ground in Madison. Venice and the unincorporated area of Madison county already have uniform laws, and St. Clair county has just halted its late hours for night clubs. A similar move is underway in East St. Louis.

The 4 a.m. Madison closing is out of step with the surrounding area, and this fact alone potentially can cause unnecessary law enforcement problems and violence. City officials would be justified in saying that they do not wish to attract to Madison the patrons who have already done all the drinking they wish to do elsewhere in St. Louis and the Illinois Metropolitan Area.

The other major question of the moment is the proposed annexation of East Madison by the city of Madison. The plan calls for the city to take over the area of both areas—East Madison because it would obtain city services at reasonable cost, and Madison because expansion would open the door to new and new growth for the threatened municipality.

It appears that many people in both areas would welcome an outward extension of city boundaries. This would be a good year for them to talk it over, iron out any difficulties that come to mind, and proceed with the legal steps necessary to carry out the annexation.

Councilmen Giving Serious Thought To City Drainage, Sewage Problems

In discussing use of motor fuel tax funds to divert storm water from sewage treatment facilities, Granite City council members show they are doing more than just think about the problem of sewage and drainage.

The Pollution Study Committee and many of the other aldermen are not content merely to consider what has been done in the past. They realize that the problem is complex and that there may be no easy answer, but they also know that the plan is a long-term one. They are in sound planning and genuine leadership to make the plans a reality.

The full proposal for Illinois Sanitary Water Board study and local residents' consideration has not yet been formulated. But the progress that is being made gives real hope of a drainage solution that everyone can live with—and afford.

Wide Range Of Summer Recreation Offered By YMCA, Park District

It may prove to be a long, hot summer for some, but the days will pass quickly for those who take advantage of the numerous recreational programs offered by the YMCA and Granite City Park District.

The two summer programs combined probably represent the most comprehensive and varied activities ever offered for the community of this size. A park schedule was launched last week, and "Y" events are starting this week.

Operating seven playground centers as well as its basic park and recreation programs, the park district is featuring arts, crafts, gymnastics, tumbling, trampolines, tennis, swimming, baseball, softball, bowling, a new "tot lot," new junior high and high school sports and physical fitness programs, clinics on football and basketball, tournaments, "Junior Olympics" competition, outdoor concerts, opera trips and movies shown at the playgrounds, Wilson Park and St. Edward's Hospital.

A partial listing of YMCA summer plans includes swimming, lifesaving, water games, gymnastics, volleyball, golf, tumbling, archery, weight lifting, badminton, aerobics, arts and crafts, cooking, swimming, body building and conditioning, weight lifting, softball, fencing, "scuba" diving, chess, bridge and use of the health club.

With recreation programs for all age groups at no nominal cost, many chances, without charge, the "Y" and park have gone a long way toward solving the question of how to use leisure hours during the "good old summer time."

The dollar may not go as far as it used to, but what it lacks in distance it makes up in speed.

One of the best things about a vacation is the opportunity to get back home and rest.

any era is an era good to be born in. The blackness of the era only presents a challenge to the deeper to test the fiber of our steel. Many of our citizens, however, do not match the qualities of Pope John's disposition and character.

Pope John will be remembered and mourned by us all, not so much because he was a pope, but because he was a man, so simple and so humble.

To our beloved and sincere Pope John, we say: "Here we are your champion." Who will be able to replace him in our hearts? Only God knows the answer to this question.

SIDELIGHTS from SPRINGFIELD

By Sen. PAUL SIMON

WRETAPPING A THREAT TO FREEDOM

Two major pieces of legislation we face in the final weeks of the legislative session are involved with the question of whether Illinois should permit the use of electronic equipment that records our private conversations without our permission.

There are distinguished and responsible people on both sides. The question is so fundamental to our basic rights that all citizens should take an interest.

Recording At 600 Feet

There is equipment which can record your phone conversations, and I am told equipment which can be pointed in your direction from more than 500 feet away can record a conversation between two people.

One measure before the legislature says that this would be legal when authorized by certain law enforcement officials. Another measure says that all of it is illegal.

Those who favor its use include people like the superintendent of Chicago's police, Orlando Wilson, who inquired of the city of Chicago if this could be a big help in tracking down hoodlums.

Those who like the opposite view—and I am one of them—feel that this is an invasion of the basic privacy to which every citizen is entitled.

Privacy At Home

When our nation was founded, we established certain principles about the privacy of the home, and the sanctity of the practice of camping British soldiers in a home.

The great threat to our privacy today is certainly not British soldiers; it's the new electronic devices that could be used to eavesdrop on our conversations. We constantly should be on guard against them, whether the device is the tyranny of Communism or the

THE PASTOR SPEAKS

REV. ROBERT BAUMANN, St. Peter Evangelical Church, Springfield, Ill.

In the midst of graduations and commencement, many young people are perhaps asking the question: "What can I do with my life?"

There are four things, and only four things, that a person can do with his life. First, he can run away from it, or try to, as Jonah did. Second, he can live along with it, but with the pack, think with the herd in obedience to the phrase, "Everybody's doing it, why shouldn't I?"—which may be the very reason why he should not do it, if he has any character.

Third, he can take hold of life and, with allegiance of purpose and with allegiance of discipline, can run it to some end.

Fourth, he can give himself up to a cause or a person and let the person run his life. The man of this disposition were drawn to a cause or a person which would be a joy to him, and which would be a joy to him.

Wheat Marketing Cards Mailed To Farmers

M. Lee Rogers, office manager of the Madison county ASCS office, said today that the 1963 Wheat Marketing cards were mailed to eligible farmers last week.

Rogers said that if any eligible farmer does not receive his card, he should contact the local ASCS office at 110 North Main street, Edwardsville.

thing at conventions or from reports. The State Superintendent of Education who says they cannot learn should not be on the council. He said he had no right to make a proper representative for the people.

It seems that Basarich, companion trained by Nolin, his companion alderman who nearly lost his job to the councilmen to listen, either. It is a disgusting sight to see the councilman playing with city government, and is a disheartening to realize how little the people care. Let's watch our aldermen in action and demand from them the representation we all should have.

GLENVIEW RESIDENT

SEN. EBERSPACHER submitted a bill to the General Assembly to pay the Illinois Building Authority to the rental for various state projects and for the General Assembly to amend the medical practice act to Jan. 31, 1968, as the deadline for the State Superintendent of Education to pass examination for licensure in chiropractic. It was sent to the Senate for second reading.

\$52,000 Award For Madison Boy Whose Eye Was Injured

A \$52,000 verdict was handed down late Thursday by a circuit court jury in Edwardsville for nine-year-old Kirk Woolfolk of Madison. The defendant was an Indian doctor, Raha Chandrasekar, who was a resident physician for the emergency room at St. Elizabeth Hospital.

The boy, a son of Mr. and Mrs. Charles Woolfolk, 201 Second street, West Madison, was treated at the hospital on April 7, 1961, for a cut to his cheek, suffered in a bicycle fall; and it was alleged that he sustained injury to his right eye while being treated.

Dr. Chandrasekar now is in England and was not in court; nor was he represented by an attorney. A suit against the Sisters of Divine Providence, operators of the hospital, was settled out of court for \$12,000. The suit against Dr. Chandrasekar, \$50,000 was sought.

Means of collecting the \$52,000 are being studied by the boys' attorney, Burton Bernard of Granite City.

It was learned that Dr. Chandrasekar did not actually perform the emergency surgery but had hired another doctor, Dr. Jaki Sheikh, to handle emergency cases on the date of the mishap.

It was alleged in the suit that while the cut to the cheek was being sutured, the eye was pierced. The boy is a fifth grader at Dunbar school.

Annual Baptist Picnic Scheduled For June 30

Members of 22 Southern Baptist Churches and two missions will hold their third annual all-day picnic Sunday, June 30 at the Baptist Recreation Grounds in Mitchell. The picnic will begin at 10 a.m. and will continue through the evening.

Recreation activities will be planned for the various age groups and a softball game will be played in the afternoon by two of the church teams.

Long lake borders one side of the grounds and provides an opportunity for fishing for those who are interested.

Testimony On School Aid: Board To Meet

No indication was given at the U. S. Senate last week on how soon there will be action on federal "impact" aid to school districts, Granite City School Supt. Harold M. Kaiser said after returning from Washington Thursday night.

The aid—operating funds under Public Law 874 and construction money under Public Law 815—goes to schools educating numerous pupils whose parents work at non-taxpaying federal installations. Dr. Kaiser, one of a group of school officials present to testify before a subcommittee of the Senate Education and Labor Committee, went to the capital Tuesday.

The Granite City district receives over \$100,000 a year from Law 874 and has received over \$1,000,000 from Law 815 in the past year. The House has amended them in voting a one-year extension, and the Senate is considering a two-year extension.

Dr. Kaiser also attended a Senate committee hearing on physically and mentally handicapped students.

The agenda for a school board meeting at 7:30 p.m. Tuesday will be the same as that for last week's meeting, which was postponed when the superintendent was called to Washington.

Mr. Beger is survived by his wife, Anna Lee; three brothers, William, George and Clarence; all of St. Louis; three sisters, Mrs. Lillian Teepe, Mrs. Arthur (Adele) Boeckelman and Mrs. Ralph (Alice) Liebowitz, all of St. Louis.

The rodeo which was planned by the Mitchell Kiwanis club for tomorrow and Wednesday at the Tri-City Speedway was canceled by the club late this morning.

As a result, auto races, which were planned for Saturday night, will be held Tuesday night. Fairless said, with time trials starting at 7:30 p.m. and racing at 8:30 p.m. Included will be the "double-O" event for tender benders.
